

Blue (NCB)

NSF Registered “Big Bubble” Leak Detector Spray

DESCRIPTION: NC Blue Leak Detector (NCB) is a high quality, surfactant-based gas leak detector solution. When applied NC Blue Leak Detector (NCB) is capable of detecting even the smallest leaks as well as larger sized leaks. The product is formulated to produce a strong, long lasting bubble that will allow extended detection time.

FEATURES & BENEFITS

- Ultra-Sensitive to Micro Leaks
 - Extended Bubble Life
 - Oxygen Safe
- Non-Freezing to 32°F/0°C
- NSF Registered for use in Food Processing Plants

DIRECTIONS: For best results, spray a generous, uniform coating of NC Blue Leak Detector (NCB) directly on to the surface wherever leaks are suspected. Visually examine surface for signs of white foam or small bubble formations. White foam indicates small leaks while bubbles indicate larger leaks. Check top and bottom of all fittings for signs of foam or bubbles. If foam or bubbles are observed, repair leak as appropriate. If no leaks are found, wash surface with clean, damp cloth.

PHYSICAL PROPERTIES

APPEARANCE	Viscous Liquid
COLOR	Blue
ODOR	Detergent
pH	9.5- 10.5
SPECIFIC GRAVITY	1.03-1.06
PACKAGING	6x32oz bottles/case 4x1 gallon bottles/case
