## OXY-FUEL EQUIPMENT

### WELDING & BRAZING TORCH

|   |                             |  |
|---|-----------------------------|--|
|  | <b>Part No.</b><br>NTW141TA | <b>Description</b><br>Welding Torch with "A" Hose Fittings and Rear Valve Design |
|---|-----------------------------|--|

### STUBBY STYLE WELDING & BRAZING TORCH

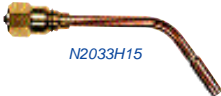

|   |                            |   |
|---|----------------------------|---|
|  | <b>Part No.</b><br>NTC15WA | <b>Description</b><br>Compact Brazing Torch with "A" Hose Fitting |
|---|----------------------------|---|

- Front needle valves give precise flame control
- "A" hose fittings
- Use with Stubby-style 2033 or Standard-style 3033 tips
- Compact durable construction

### REPLACEMENT WELDING / BRAZING / HEATING TIPS (Standard Size)

|   |                 |                            |                         |
|---|-----------------|----------------------------|-------------------------|
|   | <b>Part No.</b> | <b>Description</b>         | <b>Brazing Capacity</b> |
|    | N30331          | Replacement Welding Tip #1 | 1/4 to 1"               |
|   | N30333          | Replacement Welding Tip #3 | 1/2 to 1-3/8"           |
|   | N3033H15        | Heating Tip (Small)        | Up to 1-1/2"            |
|   | N3033H30        | Heating Tip (Medium)       | Up to 3"                |
| • Fits all NRP oxy-fuel handles   |                 |                            |                         |
|  | N32001          | W-200 Welding Tip #1       | 1/4 to 1"               |
|  | N32002          | W-200 Welding Tip #2       | 1/2 to 1-3/8"           |
|  | N325015         | W-200 Heating Tip #15      | Up to 1-1/2"            |
|  | N325030         | W-200 Heating Tip #30      | Up to 3"                |
| • Fits Prestolite® oxy-fuel handles   |                 |                            |                         |

### STUBBY STYLE WELDING & BRAZING TIPS

|  |                 |                       |                         |
|--|-----------------|-----------------------|-------------------------|
|  | <b>Part No.</b> | <b>Description</b>    | <b>Brazing Capacity</b> |
|       | N2033           | Welding & Brazing Tip | 3/16 to 3/4"            |
|       | N2033H15        | Welding & Brazing Tip | 1/4 to 1"               |
|       | N20333          | Welding & Brazing Tip | 1/2 to 1-3/8"           |
|       | N2033H15        | Heating Tip           | Up to 1-1/2"            |
|       | N2066T00        | Twin Tip              | Up to 1-1/2"            |
|       | N2066T0         | Twin Tip              | Up to 1"                |
|       | N2066T1         | Twin Tip              | Up to 2"                |
|       | N2077G00        | G Brazing Tip         | Up to 1/2"              |
|       | N2077G0         | G Brazing Tip         | Up to 1"                |
|       | N2077G1         | G Brazing Tip         | Up to 1-1/2"            |
|       | N2077G2         | G Brazing Tip         | Up to 2"                |
|       | N2077G3         | G Brazing Tip         | Up to 3"                |
|  | N2011F6         | Flex Tip 6"           | Up to 1-1/2"            |
|  | N2011F10        | Flex Tip 10"          | Up to 1-1/2"            |

- Fits all NRP oxy-fuel handles
- Rugged and designed for commercial applications
- Short heavy duty design
- Gives up close control and maximizes movement in tight areas
- Made of brass and copper
